

# ANGEL EATS

Over 100 million tonnes of food are wasted annually in the EU (2014 estimate). If nothing is done, food waste is expected to rise to about 126 million tonnes by 2020.

UPDATE: The 72 hour Syria appeal ended at 9 a.m. (CET) on Saturday 6 December.

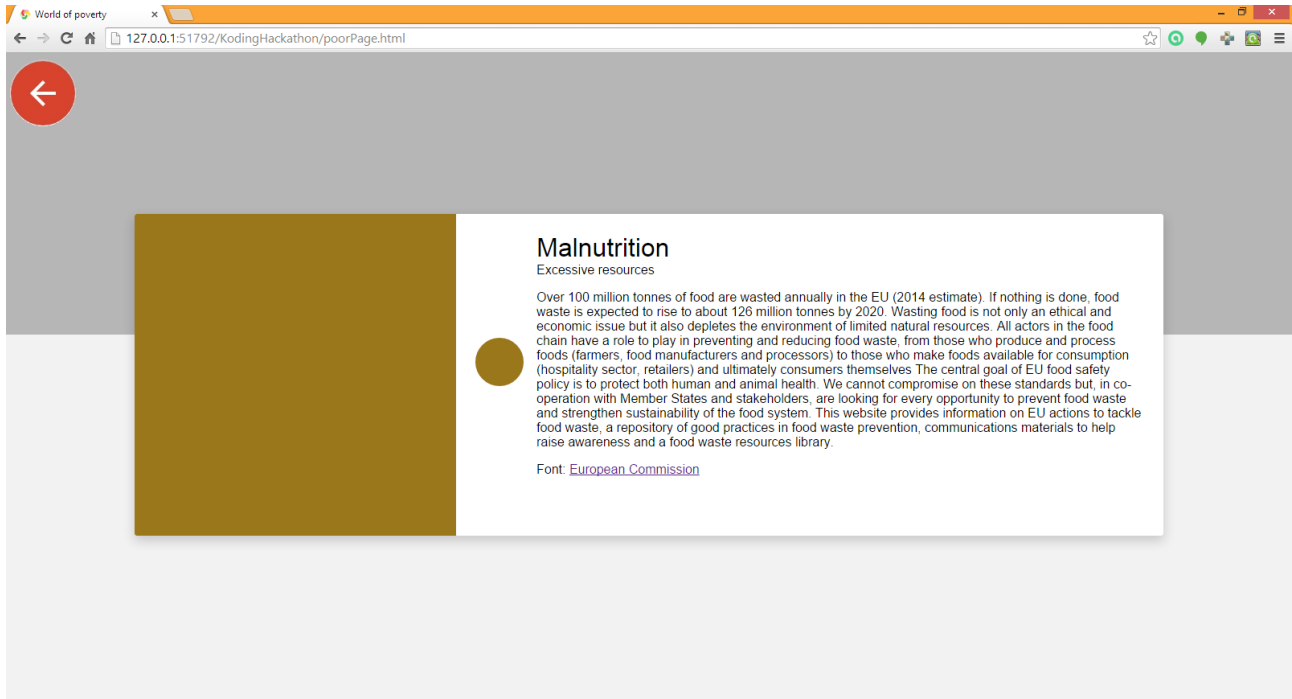

Wasting food is not only an ethical and economic issue but it also depletes the environment of limited natural resources.

All actors in the food chain have a role to play in preventing and reducing food waste, from those who produce and process foods (farmers, food manufacturers and processors) to those who make foods available for consumption (hospitality sector, retailers) and ultimately consumers themselves Font: [European Commission](#)
